

PRIMEX

Product Specification Sheet

PRODUCT
MODEL CODE

FDF
Rackmount Fiber Distribution Frame

1. PRODUCT SUMMARY

The Primex Rackmount Fiber Distribution Frame (FDF) terminates 24 fibers for central office applications.

Ideal for small and medium-sized business fiber and MDU installation, the FDF provides simple, front-access cable management in a compact chassis.

It fits 19" and 23" racks and offers dual 12-fiber splice trays with optional pre-installed adapters.

2. PRODUCT DIMENSIONS

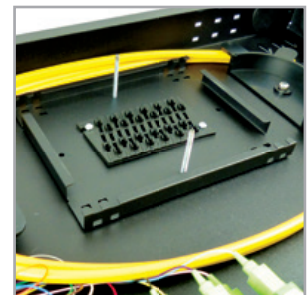

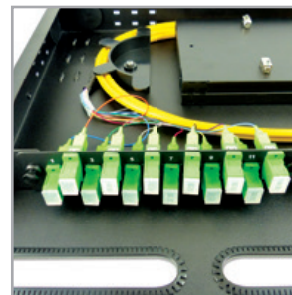

SIZE: 12.25"L x 16"W x 1.75"H

3. FEATURES & BENEFITS

- 24-fiber central office solution for business fiber and MDU applications.
- Front-accessible fiber management in compact design fits 19" and 23" cabinets.
- Scalable up to 96 fibers with LC connectors.
- Dual 12-fiber stacking splice trays for compact and managed cable pathways.
- Ample internal cable storage for clean, bend radius-protected cable management.
- Optional factory-installed SC/APC adapters for reduced installation time.
- Rugged, durable metal chassis.

4. CONFIGURATIONS
